

Reporting with Confidence

SKYLEDGER® REVENUE ACCOUNTING

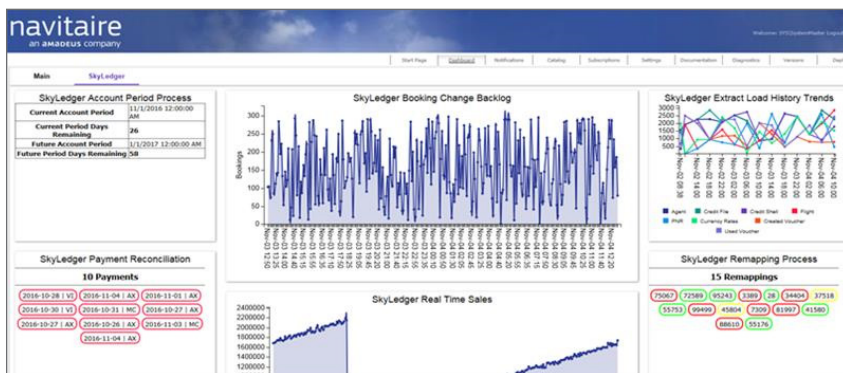

Built for You

Navitaire's advanced, automated revenue accounting system is the only revenue accounting system specifically designed for hybrid carriers, integrated in both design and approach to New Skies® – ticketless for direct channel and ticketed for GDS or interline. It is the top selling revenue accounting solution for carriers on New Skies.

Real-Time Insights

SkyLedger's live dashboard and reporting tools give you up-to-the-minute sales and earned revenue snapshots so you know where your revenue stands every step of the journey. All booking activity and flight closures are fed in near real-time to the accounting subledger, enabling point-in-time, accurate sales monitoring and wheels up accounting for earned revenue.

Real-time Navitaire Dashboard: with up-to-the-minute sales and earned revenue
